About

With the MXP software suite, MarineXchange offers the only enterprise software platform for the cruise industry. It provides a complete portfolio of powerful tools to better manage cruise-ship operations in a corporate office as well as onboard ships. It allows cruise lines to manage all guest and crew data in real time with best-in-class software in a fully integrated environment. MarineXchange MXP software is used by over 30 ocean, river and expedition cruise lines on more than 300 installations.

Tasks

As the *Solution Architect for System Interfaces* you have the opportunity to support the evolution of the business and internal development. Responsibilities are:

- End to end responsibility for establishing interfaces to third party systems

- Design solutions with our customers and their system providers
- Define a standard for future and existing interfaces
- Monitor the unification of existing interfaces and their documentation

Requirements

- You have experience in linking software systems together
- You have experience in describing interfaces
- You have experience with standard interface technologies like REST, SOAP, gRPC, events, files
- You are highly motivated, a fast learner and problem solver
- You must be able to communicate with others in English
- Knowledge in cloud computing (Azure) technologies are a plus

Benefits and Perks

- A work environment with exciting and varied activities
- An excellent working atmosphere in a highly motivated and successful team
- International corporate culture
- Training in sector-specific programs and processes
- Regular team events
- Flextime model
- Free cruises
- EUR 4.500,00 per month with the willingness to pay more to match your qualification
