ABOUT

With the MXP software suite, MarineXchange offers the only enterprise software platform for the cruise industry. It provides a complete portfolio of powerful tools to better manage cruise-ship operations in a corporate office as well as onboard ships. Currently, more than 50 companies with over 385 installations are using the MXP enterprise platform to manage their business.

JOB DESCRIPTION

- End-to-end project management for mobile app development
- Responsible for the planning, development, testing, support, documentation, and delivery of mobile apps. This includes monitoring of milestones and budgets.
- Serve as the liaison between customers and technical teams, ensuring clear communication and alignment on project deliverables
- Evaluation of customer requests
- Ongoing communication with customers

REQUIREMENTS

- Fluent English and German for effective client communication
- Solid background and hands-on experience in .NET, web, and mobile app development
- Demonstrated experience in managing technical projects from conception to completion
- Strong ability to translate customer needs into actionable project plans and deliverables
- Exceptional interpersonal skills, with the ability to communicate complex technical information effectively to non-technical stakeholders
- Robust problem-solving capabilities, providing practical and innovative solutions
- Ability to adeptly navigate unexpected challenges and changes in the project landscape
- Familiarity or prior experience within the cruise industry is considered advantageous, but not required

BENEFITS AND PERKS

- Rapid professional and personal development at the leading software supplier in the cruise industry
- Home Office and Flextime model
- Secure and long-term employment in a fast-growing industry
- A work environment with exciting and varied tasks
- A great working atmosphere in a highly motivated and successful team with international corporate culture
- Competitive salary to match your qualification
